

Name	<b>LASSI</b> Club
URL	<a href="http://www.lassi.net">http://www.lassi.net</a>
Description	<b>LASSI</b> Mission

The Finnish **LASSI** Club serves as a cooperation network and forum for light assembly, ensuring that knowhow in assembly production and equipment technology retains its world-class position, and supporting the further development of expertise and infrastructure in the field in order to lead the world.

#### **LASSI** Strategy

- **LASSI** Club will constitute an active network of experts and a cooperation forum in the field of light assembly with good relations to networks supporting other types of activity and forums both at national and international level. This is the way to ensure the availability of the most recent, top quality knowledge and expertise.
- **LASSI** Club will endeavour to promote cooperation between business life and research institutes and to serve as an efficient tool for technology transfer.
- Efficient use of the Internet <http://www.lassi.net> (**LASSI** portal) by utilising and developing web-based applications, tools, databases and services for the needs of Club members.

#### Actions

- **LASSI**-portal improves communication, information change and technology transfer between humans and organisations and gives access to important and most relevant data, information and data bases and services
- Benchmarking incl. e.g. **LASSI** Technical Tours, **LASSI** Summit Seminars and **LASSI** World Congress
- Training seminars and workshops and **LASSI** Academy
- Publicity and other activities
